

# Recruiting in the broadcast & media sectors?

Since our launch in 2001, our distinctive approach to recruitment advertising has helped hundreds of companies find the talented people they need.

## What's so different about grapevinejobs?

Mainly, it's our firm commitment to *quality* over *quantity*:

- The jobs we publish are well-presented, relevant – and genuine
- We keep grapevinejobs clear and simple – and we don't clutter it with advertising banners or other distracting content
- We are firmly targeted at media industry professionals – not the general public
- grapevinejobs is never advertised; instead, we let word-of-mouth take its course. Our patience has paid off with the very high calibre of our jobseekers (of whom 78% are graduates, and 96% have the right to work in the UK)
- Only 37% of our visitors come from search – and 76% of those searches include the word "grapevine"

## Jobs get noticed on grapevinejobs:

- Over **55,000** people visit the site each month
- Over **50,000** jobseekers subscribe to our daily email job alert service (which matches jobseekers' **exact** requirements with all new listings)
- All jobs can be seen with one click from our home page
- Your job will be one of a relatively small number (usually 200 or less), not lost amongst many thousands of others
- All job listings include your company logo and full profile
